

HEATHER MILLER

Senior Technical Writer & Knowledge Management Specialist

Rockwall, TX • 214-471-2995 • miller1218@outlook.com • [Portfolio](#) • [LinkedIn](#)

PROFESSIONAL SUMMARY

Certified Professional Technical Communicator (CPTC) with 10+ years building documentation systems that stay accurate as products change weekly, not just documents that read well once. Background spans multi-module SaaS ERP platforms, structured authoring in DITA/XML, and industrial equipment documentation, with particular strength in end-to-end knowledge base ownership, documentation governance, and cross-functional collaboration with product, engineering, and QA.

EXPERIENCE

Senior Technical Writer / Knowledge Management Owner Datacor, Inc.

2022 – 2026
Remote

- Owned the end-to-end knowledge base for a SaaS ERP platform spanning 20+ modules, as sole documentation owner across a weekly release cadence.
- Led a full CMS migration: content inventory, structural reorganization, and a rewrite of 400+ help topics, plus the governance standards that kept the new system sustainable afterward.
- Partnered with product, development, and QA each release cycle to capture undocumented feature behavior and close documentation gaps before users encountered them.
- Built content dependency maps and conducted recurring audits to catch stale or drifting documentation before it became a support issue.
- Owned the organization-wide style guide and managed the localization workflow for Latin American markets in partnership with translation vendors.

Senior Technical Writer / Technical Editor Epiroc Drilling Solutions

2016 – 2022
Garland, TX

- Authored and maintained user guides, help topics, and release notes using DITA/XML structured authoring in XMetaL.
- Provided technical editing in Adobe FrameMaker across an established, large-scale documentation set.
- Led migration of legacy documentation into a modern DITA-based content management system, including topic restructuring and a content reuse strategy.

Research Writing Instructor COACH Rockwall Co-op

2023 – Present
Rockwall, TX

- Develop and deliver a 13-week high school research writing course, including curriculum, rubrics, and structured weekly handouts that translate academic writing standards into clear, actionable guidance for students.

CORE SKILLS

- DITA/XML Structured Authoring (XMetaL)
- RoboHelp / Adobe FrameMaker
- HTML & GitHub
- Content Reuse & Conditional Publishing
- Cross-Functional Collaboration
- ClickHelp CMS Administration
- SharePoint / Confluence / Jira
